

## BEAUTIFUL LIZARDS

Ilir composes on his guitar and Sandra improvises on the drums. We are an instrumental band.  
Art and music help us survive in a dystopian world

Ilir Xhediku on guitar and bass. Sandra Yuen on drums. Making magic happen.

Formerly Beautiful Losers - Pacific Northwest, Beautiful Lizards formed in 2021. They have released 8 albums and numerous videos. Ilir has been a musician for over 4 decades. Sandra acquired her first drum kit for \$100. They play or jam every day. They are also artists and write as well. Please check out their art on their music videos on YouTube.

We are mad and the longer we live we see more of the disconnection, rejection, discrimination, inertia, poverty, suffering and injustice. But we exist and move forward through art and music and the opportunity to share our music. We do not profess to be anything more than a band that makes noise.

We've been described as an instrumental duo band that plays a blend of surf music, garage, rock, blues, and noise. We are growing our Youtube Channel to over 10.1K views. In February 2025, modern hieroglyph went viral in Brazil and Portugal on Facebook. Cradle was hot in Vietnam on TikTok.

## REVIEWS

*"A blue Sonic Youth with encroaching industrial sound scapes. They are fearless in exploring jazz and blues tones and flirting with the Ramones while remaining true to their unique creativity and quest. Watch out for their sophomore album! 9 out of 10." - Levi and Marina*

*"Beautiful Losers defies genre"*

*"I like your music"*
